

SCHOLARSHIPS

Each of the scholarship opportunities listed below shows the sponsoring organization, a brief summary of who can apply, and where complete scholarship information and applications can be found. This is the most comprehensive list of scholarships available to students involved in sheep production totaling nearly \$75,000, and it is our hope that this helps both bring the best applicants to all sponsoring organizations as well as bring financial aid to students as they work toward their educational goals.

These opportunities are available to students involved in the sheep industry, whether they are high school, trade school, college, university, or graduate students. Some are breed specific, others are state or region specific, and still others are open to varying degrees of education, and various levels of sheep and agricultural involvement.

The Banner Sheep Magazine thanks all organizations who offer scholarships to promote students and the sheep industry and wishes applicants the best of luck as they continue their education.

Nearly \$75,000
available for over
65+ scholarships from
over 25 sponsoring
organizations!
