Wether Sires / Dams are to be slick shorn, no butt wool.

**Health Papers:** All animals to sell must be in compliance with Illinois and Federal health / scrapie requirements. For questions, please call 866-USDA-TAG (866/873-2824) or Illinois State Veterinarian Office at 217/782-4944. You must have a currently valid health paper issued within 30 days of the sale for every animal you sell. Veterinarians require that you provide 2 copies of the health paper for each sheep entered (**5 sheep = 10 copies**). A federal scrapie ID tag must be in each animal's ear. This applies to all animals in all classes. The following information must be legibly written or typed on all health papers:

- 1) Owner or consignor name & address
- 2) Species & purpose of movement
- 3) Private flock tag number **AND**
- 4) Federal Scrapie ID number (must include premise ID and individual tag number)
- 5) Age, sex, and breed of each animal
- 6) Signature and printed name, address and phone number of accredited veterinarian.

**Out of State Sheep:** All out of state sheep entering Illinois are required to obtain a permit number to enter the state. Your veterinarian can obtain the permit number by contacting the Illinois Department of Agriculture at 217/782-4944 or [www.agr.state.il.us](http://www.agr.state.il.us). This permit number must be written on health papers. All out-of-state health papers are required to state the following for entering Illinois: None of these animals are scrapie positive, scrapie suspect, high risk or exposed and are not from an infected source or exposed flock. All Colorado sheep need a VS (Vesicular Stomatitis) statement.

**Recording of Tag Numbers on Health Papers:** Illinois requirements require you to include both the private flock number and complete scrapie tag number on the health papers. Sheep can and often do lose tags. If this happens, the health paper will still match the sheep and many problems are avoided. It is your responsibility to provide the sale manager clear and legible copies of health papers. Banner Sale Management suggests that you provide a copy of the above health paper requirements to your veterinarian to ensure that you are in compliance with health regulations.

**DNA Reporting Required:** All sheep (except club lamb class) will be required to disclose DNA results. All consignors (or representative) will be required at check-in to sign a DNA disclosure statement. DNA test results are NOT required and consignors may declare and guarantee the genotypes of their entries based solely on pedigree. Full Codon 171 (scrapie susceptibility) and Spider Syndrome genotype information must be disclosed at check-in on any animal selling in the breeding or wether sire divisions as described below. Club lamb class entries are not required to disclose genotype information. This Codon 171 and Spider Syndrome genotype information will be printed on the sale order for all breeds and classes except the club lamb class.

**All Registered Dorsets & Wool Breeds:** Sheep of all genotypes (RR, QR, QQ) will be allowed to sell. Each consignor must declare and guarantee makeup of each of their entries with respect to Codon 171 only.

**Hampshires, Oxfords, Southdowns, Suffolks, Crossbred & Unregistered & other Black Face Meat Breeds:** Sheep of all genotypes (RR, QR, QQ, NN, NS) will be allowed to sell. Each consignor must declare and guarantee makeup of each of their entries with respect to BOTH Spider Syndrome and Codon 171.

**Southdown Specific DNA policy:** All animals consigned and sold must be warranted by the seller as either genotype QR or RR (at Codon 171) and NN, a non-carrier of hereditary chondrodysplasia (spider syndrome) and a non-carrier of Ectodermal Dysplasia (Hairy Lamb Syndrome). QQ or NS Southdowns may not be sold at this sale. Please refer to the ASBA DNA policies for any questions.

Banner Sale Management believes that DNA test results can be a useful tool for both consignors and prospective buyers. Space is available on the entry forms if this information is known at the time entries are made. We suggest that all consignors post DNA results on stall cards at the pens so that this information can be made available to prospective buyers. To assist all consignors, blank stall cards are available at check-in. Neither Banner Sale Management nor sale sponsors shall assume any liability, legal or otherwise, expressed or implied as it relates to this information.
