HEALTH PAPERS: Will be written at the sale. Your local or state veterinarian should be able to update you concerning the health requirements for sheep entering from your state. All sheep sold must be in compliance with current Federal Scrapie Regulations. The sale veterinarian will prepare standard, interstate health papers for transportation between states, but it is the buyer's responsibility to be cognizant of and adhere to the entrance requirements of his own state. When entry permits are required, this can often be done prior to your arrival at the sale by contacting your state office. Your local veterinarian can often help facilitate this process.

INFORMATION RETAINMENT COMPLIANCE FEE (IRCF): There will be an IRCF of \$10 per head sold on all animals added to the buyer's settlement at this sale. This applies to all animals sold through the sale. Banner Sale Management maintains records on all animals sold through the sale ring for a minimum of five years to be in compliance with regulations as set forth by the United States Department of Agriculture.

MAIL & PHONE BIDS: If you cannot attend the sale in person, a number of individuals will be able to handle your bids. These include the Sale Manager, Greg Deakin, the auctioneer or ringmen. All mail or phone-in bids must have pre-approval by Sale Management prior to the start of the sale. All mail or phone-in bid animals must be paid for within 5 days or assessed a 5% fee. The above Buyer Premium applies to all mail and phone-in bids. Banner Sale Management advises that you contact us well in advance of the sale if you are considering using a mail or phone-in bid at this sale.

NOTICE: Neither the sale management, Modesto Junior College, nor the consignors to the sale assume any risk or liability in case of accidents of any kind or losses of any kind to any person or persons in attendance at the sale.

The auctioneer's decision is final on any disputed bids. All animals are at purchaser's risk as soon as sold. This is a very young yearling and will only be pushing 10 months old at the time of this event. Per flock inspection last year, his dam was described as Type 5 and sire described as Type 4. This little guy shows tremendous potential. He's an excellent shedder, very masculine, well balanced with excellent conformation.
